**601-442-1601**  
(Registrant's Telephone Number, Including Area Code)

**Not Applicable**  
(Former Name, Former Address and Former Fiscal Year, If Changed Since Last Report)

Indicate by check mark whether registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes  No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes  No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer," and "smaller reporting company" in Rule 12b-2 of the Exchange Act (check one):

Large accelerated filer	<input type="checkbox"/>	Accelerated filer	<input checked="" type="checkbox"/>
Non-accelerated filer	<input type="checkbox"/>	(Do not check if smaller reporting company)	Smaller reporting company <input type="checkbox"/>

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes  No

The Registrant had 161,041,320 shares of common stock outstanding as of October 28, 2016.

## DEFINITIONS

All defined terms under Rule 4-10(a) of Regulation S-X shall have their prescribed meanings when used in this report. As used in this document:

- **ARO:** asset retirement obligation.
- **Bbl or Bbls:** barrel or barrels of oil or natural gas liquids.
- **BOE:** barrel of oil equivalent, determined by using the ratio of one Bbl of oil or NGLs to six Mcf of gas. The ratio of one barrel of oil or NGL to six Mcf of natural gas is commonly used in the industry and represents the approximate energy equivalence of oil or NGLs to natural gas, and does not represent the economic equivalency of oil and NGLs to natural gas. The sales price of a barrel of oil or NGLs is considerably higher than the sales price of six Mcf of natural gas.
- **BBtu:** billion Btu.
- **BOE/d:** BOE per day.
- **Btu:** a British thermal unit, which is a measure of the amount of energy required to raise the temperature of one pound of water one degree Fahrenheit.
- **GAAP:** Generally Accepted Accounting Principles in the United States.
- **Henry Hub:** A natural gas pipeline delivery point that serves as the benchmark natural gas price underlying NYMEX natural gas futures contracts.
- **LIBOR:** London Interbank Offered Rate.
- **LOE:** lease operating expense.
- **MBbls:** thousand barrels of oil.
- **MBOE:** thousand BOE.
- **MMBOE:** million BOE.
- **Mcf:** thousand cubic feet of natural gas.
- **MMBtu:** million Btu.
- **MMcf:** million cubic feet of natural gas.
- **NGL or NGLs:** natural gas liquids, such as ethane, propane, butanes and natural gasoline that are extracted from natural gas production streams.
- **NYMEX:** New York Mercantile Exchange.
- **Oil:** includes crude oil and condensate.
- **SEC:** United States Securities and Exchange Commission.
- **WTI:** West Texas Intermediate grade crude oil, used as a pricing benchmark for sales contracts and NYMEX oil futures contracts.

With respect to information relating to our working interest in wells or acreage, “net” oil and gas wells or acreage is determined by multiplying gross wells or acreage by our working interest therein. Unless otherwise specified, all references to wells and acres are gross.

**Note 1 - Description of Business and Basis of Presentation**

*Description of business*

Callon Petroleum Company is an independent oil and natural gas company established in 1950. The Company was incorporated under the laws of the state of Delaware in 1994 and succeeded to the business of a publicly traded limited partnership, a joint venture with a consortium of European investors and an independent energy company partially owned by a member of current management. As used herein, the “Company,” “Callon,” “we,” “us,” and “our” refer to Callon Petroleum Company and its predecessors and subsidiaries unless the context requires otherwise.

Callon is focused on the acquisition, development, exploration and exploitation of unconventional onshore, oil and natural gas reserves in the Permian Basin in West Texas. The Company’s operations to date have been predominantly focused on horizontal drilling of several prospective intervals, including multiple levels of the Wolfcamp formation and, more recently, the Lower Spraberry shale in the Midland Basin. Callon has assembled a multi-year inventory of potential horizontal well locations and intends to add to this inventory through delineation drilling of emerging zones on its existing acreage and acquisition of additional locations through working interest acquisitions, acreage purchases, joint ventures and asset swaps.

*Basis of presentation*

**Unless otherwise indicated, all dollar amounts included within the Footnotes to the Financial Statements are presented in thousands, except for per share and per unit data.**

The interim consolidated financial statements of the Company have been prepared in accordance with (1) GAAP, (2) the SEC’s instructions to Quarterly Report on Form 10-Q and (3) Rule 10-01 of Regulation S-X, and include the accounts of Callon Petroleum Company, and its subsidiary, Callon Petroleum Operating Company (“CPOC”). CPOC also has subsidiaries, namely Callon Offshore Production, Inc. and Mississippi Marketing, Inc.

These interim consolidated financial statements should be read in conjunction with the Company’s Annual Report on Form 10-K for the year ended December 31, 2015. The balance sheet at December 31, 2015 has been derived from the audited financial statements at that date. Operating results for the periods presented are not necessarily indicative of the results that may be expected for the year ended December 31, 2016.

In the opinion of management, the accompanying unaudited consolidated financial statements reflect all adjustments, including normal recurring adjustments and all intercompany account and transaction eliminations, necessary to present fairly the Company’s financial position, the results of its operations and its cash flows for the periods indicated. Certain prior year amounts may have been reclassified to conform to current year presentation.

***Recently issued accounting policies***

In March 2016, the Financial Accounting Standards Board issued accounting standards update No. 2016-09, Compensation – Stock Compensation (Topic 718): *Improvements to Employee Share-Based Payment Accounting* (“ASU 2016-09”). The standard is intended to simplify several aspects of the accounting for share-based payment transactions, including the income tax consequences, classification of awards as either equity or liabilities, and classification on the statement of cash flows, and will allow companies to estimate the number of stock awards expected to vest. The guidance in ASU 2016-09 is effective for public entities for annual reporting periods beginning after December 15, 2016, including interim periods therein. Early adoption is permitted and is to be applied on retrospective basis. The Company is currently evaluating the method of adoption and impact this standard may have on its financial statements and related disclosures.

In August 2016, the Financial Accounting Standards Board issued accounting standards update No. 2016-15, Statement of Cash Flows (Topic 230): *Classification of Certain Cash Receipts and Cash Payments* (“ASU 2016-15”). The objective of the standard is to reduce the existing diversity in practice of several cash flow issues, including debt prepayment or debt extinguishment costs, settlement of zero-coupon debt instruments or other debt instruments with coupon rates that are insignificant in relation to the effective interest rate of the borrowing, contingent consideration payment made after a business combination, proceeds from the settlement of insurance claims, proceeds from the settlement of corporate-owned life insurance policies, including bank-owned life insurance policies, distributions received from equity method investees, beneficial interests in securitization transactions, and separately identifiable cash flows and application of the predominance principle. The guidance in ASU 2016-15 is effective for public entities for annual reporting periods beginning after December 15, 2017, including interim periods therein. Early adoption is permitted and is to be applied on retrospective basis. The Company is currently evaluating the method of adoption and impact this standard may have on its financial statements and related disclosures.

#### ***Recently adopted accounting policies***

In November 2015, the FASB issued ASU No. 2015-17, *Balance Sheet Classification of Deferred Taxes* (“ASU 2015-17”), which eliminates the current requirement to present deferred tax liabilities and assets as current and noncurrent amounts on the balance sheet. Instead, entities will be required to classify all deferred tax assets and liabilities as noncurrent on the balance sheet. The guidance in ASU 2015-17 is effective for public entities for annual reporting periods beginning after December 15, 2016, and interim periods within those annual periods. Early application is permitted. As of September 30, 2016, the Company adopted this ASU, which does not have a material impact on its financial statements.

#### **Note 2 – Oil and Natural Gas Properties**

The Company uses the full cost method of accounting for its exploration and development activities. Under this method of accounting, the cost of both successful and unsuccessful exploration and development activities are capitalized as oil and gas properties. Such amounts include the cost of drilling and equipping productive wells, dry hole costs, lease acquisition costs, delay rentals, interest capitalized on unevaluated leases, other costs related to exploration and development activities, and site restoration, dismantlement and abandonment costs capitalized in accordance with asset retirement obligation accounting guidance. Costs capitalized also include any internal costs that are directly related to exploration and development activities, including salaries and benefits, but do not include any costs related to production, general corporate overhead or similar activities.

Under full cost accounting rules, the Company reviews the carrying value of its proved oil and natural gas properties each quarter. Under these rules, capitalized costs of oil and natural gas properties, net of accumulated depreciation, depletion and amortization and deferred income taxes, may not exceed the present value of estimated future net cash flows from proved oil and natural gas reserves, discounted at 10%, plus the lower of cost or fair value of unevaluated properties, net of related tax effects (the full cost ceiling). These rules require pricing based on the preceding 12-months’ average oil and natural gas prices based on closing prices on the first day of each month and require a write-down if the net capitalized costs of proved oil and natural gas properties exceeds the full cost ceiling. At September 30, 2016, the average realized prices used in determining the estimated future net cash flows from proved reserves were \$38.92 per barrel of oil and \$2.53 per Mcf of natural gas. For the three months ended September 30, 2016 no write-down of oil and natural gas properties was recognized as a result of the ceiling test limitation. For the nine months ended September 30, 2016, the Company recognized a write-down of oil and natural gas properties of \$95,788 as a result of the ceiling test limitation.

#### **Note 3 - Acquisitions**

Acquisitions were accounted for under the acquisition method of accounting, which involves determining the fair value of the assets acquired and liabilities assumed under the income approach.

**2016 acquisitions**

On August 3, 2016, the Company entered into a definitive purchase and sale agreement for the acquisition of an additional 4.0% working interest (3.0% net revenue interest) in the Casselman-Bohannon fields for total cash consideration of \$13,000, excluding customary purchase price adjustments. Following the completion of this acquisition the Company will own approximately 75.3% working interest (58.5% net revenue interest) in the Casselman-Bohannon fields. The following table summarizes the estimated acquisition date fair values of the net assets to be acquired in the acquisition:

Evaluated oil and natural gas properties	\$ 6,492
Unevaluated oil and natural gas properties	6,508
Net assets acquired	<u>\$ 13,000</u>

On May 26, 2016, the Company completed the acquisition of 17,298 gross (14,089 net) acres primarily located in Howard County, Texas from BSM Energy LP, Crux Energy LP and Zaniah Energy LP, for total cash consideration of \$220,000 and 9,333,333 shares of common stock for a total purchase price of \$329,573, excluding customary purchase price adjustments (the “Big Star Transaction”). The Company acquired an 81% average working interest (61% average net revenue interest) in the properties acquired in the Big Star Transaction.

The preliminary purchase price allocation is subject to change based on numerous factors, including the final adjusted purchase price and the final estimated fair value of the assets acquired and liabilities assumed. Any such adjustments to the preliminary estimates of fair value could be material. The following table summarizes the estimated acquisition date fair values of the net assets to be acquired in the acquisition:

Evaluated oil and natural gas properties	\$ 96,194
Unevaluated oil and natural gas properties	233,387
Asset retirement obligations	(8)
Net assets acquired	<u>\$ 329,573</u>

The following unaudited summary pro forma financial information for the three and nine months ended September 30, 2016 has been presented for illustrative purposes only and does not purport to represent what the Company’s results of operations would have been if the Big Star Transaction had occurred as presented, or to project the Company’s results of operations for any future periods. The pro forma financial information was prepared assuming the Big Star Transaction occurred as of January 1, 2015. The pro forma adjustments are based on available information and certain assumptions that management believes are reasonable, including those pertaining to revenue, lease operating expenses, production taxes, depreciation, depletion and amortization expense, write-down of oil and natural gas properties, accretion expense, interest expense and capitalized interest.

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2016	2015	2016	2015
Revenues	\$ 55,927	\$ 41,501	\$ 140,937	\$ 119,561
Income from operations	16,651	(17,644)	(68,753)	(25,339)
Income available to common stockholders	19,315	(43,720)	(88,886)	(55,896)
Net income per common share:				
Basic	\$ 0.14	\$ (0.43)	\$ (0.79)	\$ (0.57)
Diluted	\$ 0.14	\$ (0.43)	\$ (0.79)	\$ (0.57)

From the date of the acquisition through the period ended September 30, 2016, the properties associated with the Big Star Transaction have been comingled with our existing properties and it is impractical to provide the stand-alone operational results related to these properties.

On May 16, 2016, the Company completed the following transactions (collectively, the “AMI Transaction”) for an aggregate net cash purchase price of \$33,012, excluding customary purchase price adjustments. Key elements of the AMI Transaction include:

- Formation of an area of mutual interest with TRP Energy, LLC (“TRP”) in western Reagan County, Texas, through the joint acquisition from a private party of 4,745 net acres (with a 55% share to Callon) north of the Garrison Draw field; and
- Callon’s simultaneous sale of a 27.5% interest in the Garrison Draw field to TRP.

The following table summarizes the acquisition date fair values of the net assets acquired, including customary purchase price adjustments:

Evaluated oil and natural gas properties	\$ 15,951
Unevaluated oil and natural gas properties	17,069
Asset retirement obligations	(8)
Net assets acquired	<u>\$ 33,012</u>

On January 18, 2016, the Company completed the acquisition of an additional 4.9% working interest (3.7% net revenue interest) in the Casselman-Bohannon fields for an aggregate cash purchase price of \$10,183, including customary purchase price adjustments. The following table summarizes the acquisition date fair values of the net assets acquired, including customary purchase price adjustments:

Evaluated oil and natural gas properties	\$ 5,527
Unevaluated oil and natural gas properties	4,656
Net assets acquired	<u>\$ 10,183</u>

#### **Subsequent event**

On October 20, 2016, the Company completed the acquisition of 6,904 gross (5,952 net) acres primarily located in Howard County, Texas from Plymouth Petroleum, LLC and additional sellers that exercised their “tag-along” sales rights, for total cash consideration of \$340,686, excluding customary purchase price adjustments (the “Plymouth Transaction”). The Company funded the cash purchase price with the net proceeds of an equity offering (see Note 10 for additional information regarding the equity offering). The Company acquired an 82% average working interest (62% average net revenue interest) in the properties acquired in the Plymouth Transaction. In September 2016, in connection with the execution of the purchase and sale agreement for the Plymouth Transaction, the Company paid a deposit in the amount of \$32,700 to a third party escrow agent, which was recorded as Acquisition deposit on the balance sheet as of September 30, 2016.

#### **Note 4 - Earnings Per Share**

The following table sets forth the computation of basic and diluted earnings per share:

(share amounts in thousands)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2016	2015	2016	2015
Net income (loss)	\$ 21,139	\$ (111,805)	\$ (90,067)	\$ (126,969)

Weighted average shares outstanding for diluted income (loss) per share	<u>137,483</u>	<u>66,277</u>	<u>112,925</u>	<u>63,265</u>
Basic income (loss) per share	\$ 0.14	\$ (1.72)	\$ (0.85)	\$ (2.10)
Diluted income (loss) per share	\$ 0.14	\$ (1.72)	\$ (0.85)	\$ (2.10)
Stock options (a)	15	15	15	15
Restricted stock (a)	25	159	25	159

(a) Shares excluded from the diluted earnings per share calculation because their effect would be anti-dilutive.

**Note 5 - Borrowings**

The Company's borrowings consisted of the following at:

	<u>September 30, 2016</u>	<u>December 31, 2015</u>
<b>Principal components</b>		
Senior secured revolving credit facility	\$ —	\$ 40,000
Secured second lien term loan	300,000	300,000
Total principal outstanding	300,000	340,000
Secured second lien term loan, unamortized deferred financing costs	(9,915)	(11,435)
Total carrying value of borrowings	<u>\$ 290,085</u>	<u>\$ 328,565</u>

***Senior secured revolving credit facility (the "Credit Facility")***

On March 11, 2014, the Company entered into the Fifth Amended and Restated Credit Agreement to the Credit Facility with a maturity date of March 11, 2019. JPMorgan Chase Bank, N.A. is Administrative Agent, and participants include several institutional lenders. The total notional amount available under the Credit Facility is \$500,000. Amounts borrowed under the Credit Facility may not exceed the borrowing base, which is generally reviewed on a semi-annual basis. As of September 30, 2016, the Credit Facility's borrowing base was \$385,000. The Credit Facility is secured by first preferred mortgages covering the Company's major producing properties.

Effective July 13, 2016, the Credit Facility's borrowing base was increased to \$385,000 and the Company's capacity to hedge oil and natural gas volumes was effectively increased with a change in the capacity calculation to a percentage of total proved reserves from proved producing reserves. In addition, the interest rate for borrowings under the Credit Facility was increased 0.25% across all tiers of the pricing grid, resulting in a range of interest costs equal to LIBOR plus 2.00% to 3.00%. There were no modifications to other terms or covenants of the Credit Facility.

As of September 30, 2016, there was no balance outstanding on the Credit Facility. For the quarter ended September 30, 2016, the Credit Facility had a weighted-average interest rate of 2.92%, calculated as the LIBOR plus a tiered rate ranging from 2.00% to 3.00%, which is determined based on utilization of the facility. In addition, the Credit Facility carries a commitment fee of 0.5% per annum, payable quarterly, on the unused portion of the borrowing base.

***Secured second lien term loan (the "Term Loan")***

On October 8, 2014, the Company entered into the Term Loan with an aggregate amount of up to \$300,000 and a maturity date of October 8, 2021. The Royal Bank of Canada is Administrative Agent, and participants include several institutional lenders. The Term Loan may be prepaid at the Company's option, subject to a prepayment premium. The prepayment amount would be (i) 102% of principal if the prepayment event occurred prior to October 8, 2016, (ii) 101% of principal if the prepayment event occurred on or after October 8, 2016, but before October 8, 2017, and (iii) 100% of principal for prepayments made on or after October 8, 2017. The Term Loan was secured by junior liens on properties mortgaged under the Credit Facility, subject to an intercreditor agreement.

As of September 30, 2016, the balance outstanding on the Term Loan was \$300,000 with an interest rate of 8.5%, calculated at a rate of LIBOR (subject to a floor rate of 1.0%) plus 7.5% per annum. The Company elected a LIBOR rate based on various tenors, and was incurring interest based on an underlying three-month LIBOR rate, which was last elected in July 2016.

***Restrictive covenants***

The Company's Credit Facility and Term Loan contain various covenants including restrictions on additional indebtedness, payment of cash dividends and maintenance of certain financial ratios. The Company was in compliance with these covenants at September 30, 2016.

***Subsequent events***

On October 3, 2016, the Company closed the sale of \$400,000 aggregate principal amount of 6.125% senior unsecured notes due 2024 (the "Senior Notes") at an issue price of 100% of the aggregate principal amount of the Senior Notes. The Notes will mature on October 1, 2024, unless redeemed in accordance with their terms prior to such date. The net proceeds of the offering, after deducting initial purchasers' discounts and estimated offering expenses, were approximately \$391,270. The Senior Notes are guaranteed on a senior unsecured basis by the Company's wholly-owned subsidiary, Callon Petroleum Operating Company, and may be guaranteed by certain future subsidiaries. Interest on the Senior Notes is payable semi-annually.

On October 11, 2016, the Term Loan was repaid in full at the prepayment rate of 101% using proceeds from the sale of the Senior Notes, which is expected to result in a loss on early extinguishment of debt of \$12,851 (inclusive of \$3,000 in prepayment fees and \$9,851 of unamortized debt issuance costs).

## Note 6 - Derivative Instruments and Hedging Activities

### *Objectives and strategies for using derivative instruments*

The Company is exposed to fluctuations in oil and natural gas prices received for its production. Consequently, the Company believes it is prudent to manage the variability in cash flows on a portion of its oil and natural gas production. The Company utilizes a mix of collars, swaps, puts, calls and similar derivative financial instruments to manage fluctuations in cash flows resulting from changes in commodity prices. The Company does not use these instruments for speculative or trading purposes.

### *Counterparty risk and offsetting*

The use of derivative instruments exposes the Company to the risk that a counterparty will be unable to meet its commitments. While the Company monitors counterparty creditworthiness on an ongoing basis, it cannot predict sudden changes in counterparties' creditworthiness. In addition, even if such changes are not sudden, the Company may be limited in its ability to mitigate an increase in counterparty credit risk. Should one of these counterparties not perform, the Company may not realize the benefit of some of its derivative instruments under lower commodity prices while continuing to be obligated under higher commodity price contracts subject to any right of offset under the agreements. Counterparty credit risk is considered when determining the fair value of a derivative instrument; see Note 7 for additional information regarding fair value.

The Company executes commodity derivative contracts under master agreements with netting provisions that provide for offsetting assets against liabilities. In general, if a party to a derivative transaction incurs an event of default, as defined in the applicable agreement, the other party will have the right to demand the posting of collateral, demand a cash payment transfer or terminate the arrangement.

### *Financial statement presentation and settlements*

Settlements of the Company's derivative instruments are based on the difference between the contract price or prices specified in the derivative instrument and a benchmark price, such as the NYMEX price. To determine the fair value of the Company's derivative instruments, the Company utilizes present value methods that include assumptions about commodity prices based on those observed in underlying markets. See Note 7 for additional information regarding fair value.

### *Derivatives not designated as hedging instruments*

The Company records its derivative contracts at fair value in the consolidated balance sheets and records changes in fair value as a gain or loss on derivative contracts in the consolidated statements of operations. Cash settlements are also recorded as gain or loss on derivative contracts in the consolidated statements of operations.

The following table reflects the fair value of the Company's derivative instruments for the periods presented:

Commodity	Balance Sheet Presentation		Asset Fair Value		Liability Fair Value		Net Derivative Fair Value	
	Classification	Line Description	09/30/2016	12/31/2015	09/30/2016	12/31/2015	09/30/2016	12/31/2015
Natural gas	Current	Fair value of derivatives	\$ 29	\$ —	\$ (233)	\$ —	\$ (204)	\$ —
Natural gas	Non-current	Fair value of derivatives	3	—	—	—	3	—
Oil	Current	Fair value of derivatives	3,473	19,943	(7,553)	—	(4,080)	19,943
Oil	Non-current	Fair value of derivatives	54	—	(2,936)	—	(2,882)	—
	Totals		\$ 3,559	\$ 19,943	\$ (10,722)	\$ —	\$ (7,163)	\$ 19,943

As previously discussed, the Company's derivative contracts are subject to master netting arrangements. The Company's policy is to present the fair value of derivative contracts on a net basis in the consolidated balance sheet. The following presents the impact of this presentation to the Company's recognized assets and liabilities for the periods indicated:

	<b>September 30, 2016</b>		
	<b>Presented without Effects of Netting</b>	<b>Effects of Netting</b>	<b>As Presented with Effects of Netting</b>
Current assets: Fair value of derivatives	\$ 3,591	\$ (89)	\$ 3,502
Long-term assets: Fair value of derivatives	57	—	57
Current liabilities: Fair value of derivatives	(7,875)	89	(7,786)
Long-term liabilities: Fair value of derivatives	\$ (2,936)	\$ —	\$ (2,936)

	<b>December 31, 2015</b>		
	<b>Presented without Effects of Netting</b>	<b>Effects of Netting</b>	<b>As Presented with Effects of Netting</b>
Current assets: Fair value of derivatives	\$ 19,943	\$ —	\$ 19,943

For the periods indicated, the Company recorded the following related to its derivatives in the consolidated statement of operations as gain or loss on derivative contracts:

	<b>Three Months Ended September 30,</b>		<b>Nine Months Ended September 30,</b>	
	<b>2016</b>	<b>2015</b>	<b>2016</b>	<b>2015</b>
<b>Oil derivatives</b>				
Net gain on settlements	\$ 4,252	\$ 9,399	\$ 15,467	\$ 23,863
Net gain (loss) on fair value adjustments	699	13,758	(26,904)	(6,787)
Total gain (loss)	\$ 4,951	\$ 23,157	\$ (11,437)	\$ 17,076
<b>Natural gas derivatives</b>				
Net gain (loss) on settlements	\$ (161)	\$ 390	\$ 357	\$ 1,235
Net gain (loss) on fair value adjustments	345	(264)	(201)	(848)
Total gain	\$ 184	\$ 126	\$ 156	\$ 387
<b>Total gain (loss) on derivative contracts</b>	<b>\$ 5,135</b>	<b>\$ 23,283</b>	<b>\$ (11,281)</b>	<b>\$ 17,463</b>

**Derivative positions**

Listed in the tables below are the outstanding oil and natural gas derivative contracts as of September 30, 2016:

<b>Oil contracts</b>	<b>For the Remainder of 2016</b>	<b>For the Full Year of 2017</b>
<b>Swap contracts (WTI)</b>		
Total volume (MBbls)	184	—
Weighted average price per Bbl	\$ 58.23	\$ —
<b>Swap contracts combined with short puts (WTI, enhanced swaps)</b>		
Total volume (MBbls)	—	730
Weighted average price per Bbl		
Swap	\$ —	\$ 44.50
Short put option	\$ —	\$ 30.00
<b>Collar contracts combined with short puts (WTI, three-way collars)</b>		
Volume (MBbls)	184	—
Weighted average price per Bbl		
Ceiling (short call option)	\$ 65.00	\$ —
Floor (long put option)	\$ 55.00	\$ —
Short put option	\$ 40.33	\$ —
<b>Collar contracts (WTI, two-way collars)</b>		
Total volume (MBbls)	184	438
Weighted average price per Bbl		
Ceiling (short call)	\$ 46.50	\$ 59.05
Floor (long put)	\$ 37.50	\$ 47.50
<b>Call option contracts (short position)</b>		
Total volume (MBbls)	—	670
Weighted average price per Bbl		
Call strike price	\$ —	\$ 50.00
<b>Swap contracts (Midland basis differentials)</b>		
Volume (MBbls)	368	—
Weighted average price per Bbl	\$ 0.17	\$ —
<b>Natural gas contracts</b>		
<b>Swap contracts (Henry Hub)</b>		
Total volume (BBtu)	552	—
Weighted average price per MMBtu	\$ 2.52	\$ —
<b>Collar contracts combined with short puts (Henry Hub, three-way collars)</b>		
Total volume (BBtu)	—	1,460
Weighted average price per MMBtu		
Ceiling (short call option)	\$ —	\$ 3.71
Floor (long put option)	\$ —	\$ 3.00
Short put option	\$ —	\$ 2.50

**Subsequent event**

The following derivative contract was executed subsequent to September 30, 2016:

<b>Oil contracts</b>	<b>For the Remainder of 2016</b>	<b>For the Remainder of 2017</b>
<b>Collar contracts (WTI, two-way collars)</b>		
Total volume (MBbls)	—	1,095
Weighted average price per Bbl		
Ceiling (short call option)	\$ —	\$ 57.79
Floor (long put option)	\$ —	\$ 47.50

**Note 7 - Fair Value Measurements**

The fair value hierarchy included in GAAP gives the highest priority to Level 1 inputs, which consist of unadjusted quoted prices for identical instruments in active markets. Level 2 inputs consist of quoted prices for similar instruments. Level 3 valuations are derived from inputs that are significant and unobservable, and these valuations have the lowest priority.

***Fair value of financial instruments***

*Cash, cash equivalents, and restricted investments.* The carrying amounts for these instruments approximate fair value due to the short-term nature or maturity of the instruments.

*Debt.* The carrying amount of the Company's floating-rate debt approximated fair value because the interest rates were variable and reflective of market rates.

***Assets and liabilities measured at fair value on a recurring basis***

Certain assets and liabilities are reported at fair value on a recurring basis in the consolidated balance sheet. The following methods and assumptions were used to estimate fair value:

*Commodity derivative instruments.* The fair value of commodity derivative instruments is derived using an income approach valuation model that utilizes market-corroborated inputs that are observable over the term of the derivative contract. The Company's fair value calculations also incorporate an estimate of the counterparties' default risk for derivative assets and an estimate of the Company's default risk for derivative liabilities. The Company believes that the majority of the inputs used to calculate the commodity derivative instruments fall within Level 2 of the fair value hierarchy based on the wide availability of quoted market prices for similar commodity derivative contracts. See Note 6 for additional information regarding the Company's derivative instruments.

The following tables present the Company's assets and liabilities measured at fair value on a recurring basis:

<b>September 30, 2016</b>	<b>Classification</b>	<b>Level 1</b>	<b>Level 2</b>	<b>Level 3</b>	<b>Total</b>
<b>Assets</b>					
Derivative financial instruments	Fair value of derivatives	\$ —	\$ 3,559	\$ —	\$ 3,559
<b>Liabilities</b>					
Derivative financial instruments	Fair value of derivatives	—	(10,722)	—	(10,722)
Total net assets		\$ —	\$ (7,163)	\$ —	\$ (7,163)
<b>December 31, 2015</b>					
<b>Assets</b>					
Derivative financial instruments	Fair value of derivatives	\$ —	\$ 19,943	\$ —	\$ 19,943
<b>Liabilities</b>					
Derivative financial instruments	Fair value of derivatives	—	—	—	—
Total net assets		\$ —	\$ 19,943	\$ —	\$ 19,943

***Assets and liabilities measured at fair value on a nonrecurring basis***

*Acquisitions.* As discussed in Note 3, the Company completed four acquisitions during the nine months ended September 30, 2016. The Company determined the fair value of the assets acquired using the income approach based on expected future cash flows from estimated reserve quantities, costs to produce and develop reserves, and oil and natural gas forward prices. The fair value measurements were based on Level 2 and Level 3 inputs.

**Note 8 - Income Taxes**

The Company typically provides for income taxes at a statutory rate of 35% adjusted for permanent differences expected to be realized, which primarily relate to non-deductible executive compensation expenses and state income taxes. As a result of the write-down of oil and natural gas properties in the latter part of 2015 and first half of 2016, the Company incurred a cumulative three year loss. Because of the impact the cumulative loss has on the determination of the recoverability of deferred tax assets through future earnings, the Company assessed the ability to realize its deferred tax assets based on the future reversals of existing deferred tax liabilities. Accordingly, the Company established a valuation allowance for a portion of the deferred tax asset. The valuation allowance was \$139,633 as of September 30, 2016.

**Note 9 - Asset Retirement Obligations**

The table below summarizes the Company's asset retirement obligations activity for the nine months ended September 30, 2016:

Asset retirement obligations at January 1, 2016	\$	5,107
Accretion expense		762
Liabilities incurred		12
Liabilities settled		(807)
Revisions to estimate		389
Asset retirement obligations at end of period		5,463
Less: Current asset retirement obligations		(3,529)
Long-term asset retirement obligations at September 30, 2016	\$	1,934

Certain of the Company's operating agreements require that assets be restricted for abandonment obligations. Amounts recorded in the consolidated balance sheet at September 30, 2016 as long-term restricted investments were \$3,329. These assets, which primarily include short-term U.S. Government securities, are held in abandonment trusts dedicated to pay future abandonment costs.

**Note 10 - Equity Transactions****10% Series A Cumulative Preferred Stock ("Preferred Stock")**

Holders of the Company's Preferred Stock are entitled to receive, when, as and if declared by our Board of Directors, out of funds legally available for the payment of dividends, cumulative cash dividends at a rate of 10.0% per annum of the \$50.00 liquidation preference per share (equivalent to \$5.00 per annum per share). Dividends are payable quarterly in arrears on the last day of each March, June, September and December when, as and if declared by our Board of Directors. Preferred Stock dividends were \$1,824 and \$1,974 for the three months ended September 30, 2016 and 2015, respectively, and \$5,471 and \$5,921 for the nine months ended September 30, 2016 and 2015, respectively.

The Preferred Stock has no stated maturity and is not subject to any sinking fund or other mandatory redemption. On or after May 30, 2018, the Company may, at its option, redeem the Preferred Stock, in whole or in part, by paying \$50.00 per share in cash, plus any accrued and unpaid dividends to the redemption date.

Following a change of control in which the Company or the acquirer no longer have a class of common securities listed on a national exchange, the Company will have the option to redeem the Preferred Stock, in whole but not in part for \$50.00 per share in cash, plus accrued and unpaid dividends (whether or not declared), to the redemption date. If the Company does not exercise its option to redeem the Preferred Stock upon such change of control, the holders of the Preferred Stock have the option to convert the Preferred Stock into a number of shares of the Company's common stock based on the value of the common stock on the date of the change of control as determined under the certificate of designations for the Preferred Stock. If the change of control occurred on September 30, 2016, and the Company did not exercise its right to redeem the Preferred Stock, using the closing price of \$15.70 as the value of a share of common stock, each share of Preferred Stock would be convertible into approximately 3.2 shares of common stock. If the Company exercises its redemption rights relating to shares of Preferred Stock, the holders of Preferred Stock will not have the conversion right described above.

On February 4, 2016, the Company exchanged a total of 120,000 shares of Preferred Stock for 719,000 shares of common stock. As of September 30, 2016, the Company had 1,458,948 shares of its Preferred Stock issued and outstanding.

**Common stock**

On March 9, 2016, the Company completed an underwritten public offering of 15,250,000 shares of its common stock for total net proceeds (after the underwriting discounts and estimated offering costs) of approximately \$94,973. Proceeds from the offering were used to pay down the balance on the Company's Credit Facility and for general corporate purposes.

On April 25, 2016, the Company completed an underwritten public offering of 25,300,000 shares of its common stock for total net proceeds (after the underwriter's discounts and commissions and estimated offering expenses) of approximately \$205,869. Proceeds from the offering were used to fund the May 2016 Big Star Transaction and AMI Transaction, described in Note 3.

On May 26, 2016, the Company issued 9,333,333 shares of common stock to partially fund the Big Star Transaction, described in Note 3, at an assumed offering price of \$11.74 per share, which is the last reported sale price of our common stock on the New York Stock Exchange on that date.

On September 6, 2016, the Company completed an underwritten public offering of 29,900,000 shares of its common stock for total estimated net proceeds (after the underwriter's discounts and estimated offering expenses) of approximately \$421,923. Proceeds from the offering were used to substantially fund the Plymouth Transaction, described in Note 3.

**Note 11 - Other**

***Operating leases***

As of September 30, 2016, the Company had contracts for two horizontal drilling rigs (the "Cactus 1 Rig" and "Cactus 2 Rig"). The contract terms of the Cactus 1 Rig and Cactus 2 Rig will end in July 2018 and August 2018, respectively. The rig lease agreements include early termination provisions that obligate the Company to pay reduced minimum rentals for the remaining term of the agreement. These payments would be reduced assuming the lessor is able to re-charter the rig and staffing personnel to another lessee. In January 2016, the Company placed its Cactus 1 Rig on standby and was required to pay a "standby" day rate of \$15,000 per day, pursuant to the terms of the agreement, allowing the Company to retain the option to return the rig to service under the contract terms. In August 2016, the Company returned its Cactus 1 Rig to service.

***Subsequent event***

In October 2016 the Company entered into a contract for a horizontal drilling rig (the "Cactus 3 Rig"). The contract term will begin January 2017 through June 2017 with a day rate of \$16,000 per day.

### Special Note Regarding Forward Looking Statements

This report includes “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933 (the “Securities Act”), as amended, and Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”). These statements involve known and unknown risks, uncertainties and other factors that may cause our actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. In some cases, you can identify forward-looking statements in this Form 10-Q by words such as “anticipate,” “project,” “intend,” “estimate,” “expect,” “believe,” “predict,” “budget,” “projection,” “goal,” “plan,” “forecast,” “target” or similar expressions.

All statements, other than statements of historical facts, included in this report that address activities, events or developments that we expect or anticipate will or may occur in the future are forward-looking statements, including such things as:

- our oil and gas reserve quantities, and the discounted present value of these reserves;
- the amount and nature of our capital expenditures;
- our future drilling and development plans and our potential drilling locations;
- the timing and amount of future production and operating costs;
- commodity price risk management activities and the impact on our average realized prices;
- business strategies and plans of management;
- our ability to efficiently integrate recently completed acquisitions; and
- prospect development and property acquisitions.

Some of the risks, which could affect our future results and could cause results to differ materially from those expressed in our forward-looking statements, include:

- general economic conditions including the availability of credit and access to existing lines of credit;
- the volatility of oil and natural gas prices;
- the uncertainty of estimates of oil and natural gas reserves;
- impairments;
- the impact of competition;
- the availability and cost of seismic, drilling and other equipment;
- operating hazards inherent in the exploration for and production of oil and natural gas;
- difficulties encountered during the exploration for and production of oil and natural gas;
- difficulties encountered in delivering oil and natural gas to commercial markets;
- changes in customer demand and producers’ supply;
- the uncertainty of our ability to attract capital and obtain financing on favorable terms;
- compliance with, or the effect of changes in, the extensive governmental regulations regarding the oil and natural gas business including those related to climate change and greenhouse gases;
- the impact of government regulation, including regulation of endangered species;
- any increase in severance or similar taxes;
- litigation relating to hydraulic fracturing, the climate and over-the-counter derivatives;
- the financial impact of accounting regulations and critical accounting policies;
- the comparative cost of alternative fuels;
- credit risk relating to the risk of loss as a result of non-performance by our counterparties;
- weather conditions; and
- any other factors listed in the reports we have filed and may file with the SEC.

We caution you that the forward-looking statements contained in this Form 10-Q are subject to all of the risks and uncertainties, many of which are beyond our control, incident to the exploration for and development, production and sale of oil and natural gas. These risks include, but are not limited to, the risks described herein and in Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2015 (the “2015 Annual Report on Form 10-K”), and all quarterly reports on Form 10-Q filed subsequently thereto.

Should one or more of the risks or uncertainties described herein or in our 2015 Annual Report on Form 10-K occur, or should underlying assumptions prove incorrect, our actual results and plans could differ materially from those expressed in any forward-looking statements. We specifically disclaim all responsibility to publicly update any information contained in a forward-looking statement or any forward-looking statement in its entirety and therefore disclaim any resulting liability for potentially related damages.

All forward-looking statements attributable to us are expressly qualified in their entirety by this cautionary statement.

## Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

### General

The following management's discussion and analysis describes the principal factors affecting the Company's results of operations, liquidity, capital resources and contractual cash obligations. This discussion should be read in conjunction with the accompanying unaudited consolidated financial statements and our 2015 Annual Report on Form 10-K, which include additional information about our business practices, significant accounting policies, risk factors, and the transactions that underlie our financial results. Our website address is [www.callon.com](http://www.callon.com). All of our filings with the SEC are available free of charge through our website as soon as reasonably practicable after we file them with, or furnish them to, the SEC. Information on our website does not form part of this report on Form 10-Q.

We are an independent oil and natural gas company established in 1950. We are focused on the acquisition, development, exploration and exploitation of unconventional, onshore, oil and natural gas reserves in the Permian Basin in West Texas, and more specifically, the Midland Basin. Our operating culture is centered on responsible development of hydrocarbon resources, safety and the environment, which we believe strengthens our operational performance. Our drilling activity is predominantly focused on the horizontal development of several prospective intervals, including multiple levels of the Wolfcamp formation and, more recently, the Lower Spraberry shale. We have assembled a multi-year inventory of potential horizontal well locations and intend to add to this inventory through delineation drilling of emerging zones on our existing acreage and acquisition of additional locations through working interest acquisitions, acreage purchases, joint ventures and asset swaps. Our production was approximately 77% oil and 23% natural gas for the nine months ended September 30, 2016. On September 30, 2016, our net acreage position in the Permian Basin was approximately 34,199 net acres.

### Commodity Prices

The prices for oil and natural gas remain extremely volatile and sometimes experience large fluctuations as a result of relatively small changes in supply, weather conditions, economic conditions and actions by the Organization of Petroleum Exporting Countries and other countries and government actions. Prices of oil and natural gas will affect the following aspects of our business:

- our revenues, cash flows and earnings;
- the amount of oil and natural gas that we are economically able to produce;
- our ability to attract capital to finance our operations and cost of the capital;
- the amount we are allowed to borrow under our senior secured revolving credit facility; and
- the value of our oil and natural gas properties.

Beginning in the second half of 2014, the NYMEX price for a barrel of oil declined from \$105.37 on June 30, 2014 to \$48.70 on October 28, 2016. For the three months ended September 30, 2016, the average NYMEX price for a barrel of oil was \$44.94 per Bbl compared to \$46.41 per Bbl for the same period of 2015. The NYMEX price for a barrel of oil ranged from a low of \$39.51 per Bbl to a high of \$48.99 per Bbl for the three months ended September 30, 2016.

For the three months ended September 30, 2016, the average NYMEX price for natural gas was \$2.81 per MMBtu compared to \$2.77 per MMBtu for the same period in 2015. The NYMEX price for natural gas ranged from a low of \$2.55 per MMBtu to a high of \$3.06 per MMBtu for the three months ended September 30, 2016.

The Company uses the full cost method of accounting for its exploration and development activities. Under full cost accounting rules, the Company reviews the carrying value of its proved oil and natural gas properties each quarter. Under these rules, capitalized costs of oil and natural gas properties, net of accumulated depreciation, depletion and amortization and deferred income taxes, may not exceed the present value of estimated future net cash flows from proved oil and natural gas reserves, discounted at 10%, plus the lower of cost or fair value of unevaluated properties, net of related tax effects (the full cost ceiling). These rules generally require pricing based on the preceding 12-months' average oil and natural gas prices based on closing prices on the first day of each month and require a write-down if the net capitalized costs of proved oil and natural gas properties exceeds the full cost ceiling. At September 30, 2016, the realized prices used in determining the estimated future net cash flows from proved reserves were \$38.92 per barrel of oil and \$2.53 per Mcf of natural gas (including the value of NGLs in the natural gas stream). For the three months ended September 30, 2016, no write-down of oil and natural gas properties was recognized as a result of the ceiling test limitation. For the nine months ended September 30, 2016, the Company recognized a write-down of oil and natural gas properties of \$95.8 million as a result of the ceiling test limitation. If commodity prices were to decline, we could incur additional ceiling test write-downs in the future. However, we do not expect such prevailing commodity prices to have significant adverse effects on our proved oil and gas reserves. See Note 2 in the Footnotes to the Financial Statements for more information.

The table below presents the cumulative results of the full cost ceiling test for 2016 as of September 30, 2016, along with various pricing scenarios to demonstrate the sensitivity of our full cost ceiling to changes in 12-month average oil and natural gas prices. This sensitivity analysis is as of September 30, 2016, and accordingly, does not consider drilling results, production, changes in oil and natural gas prices, and changes in future development and operating costs subsequent to September 30, 2016 that may require revisions to our proved reserve estimates and resulting estimated future net cash flows used in the full cost ceiling test.

Pricing Scenarios	12-Month Average Realized Prices		Excess (Deficit) of full cost ceiling over net capitalized costs	(Increase) Decrease in excess of full cost ceiling over net capitalized costs
	Oil (\$/Bbl)	Natural gas (\$/Mcf)		
September 30, 2016 Actual	\$ 38.92	\$ 2.53	\$ 46,467	
<b>Combined price sensitivity</b>				
Oil and natural gas +10%	\$ 42.81	\$ 2.78	\$ 180,877	\$ 134,410
Oil and natural gas -10%	35.02	2.27	(87,943)	(134,410)
<b>Oil price sensitivity</b>				
Oil +10%	\$ 42.81	\$ 2.53	\$ 166,734	\$ 120,267
Oil -10%	35.02	2.53	(73,800)	(120,267)
<b>Natural gas sensitivity</b>				
Natural gas +10%	\$ 38.92	\$ 2.78	\$ 60,610	\$ 14,143
Natural gas -10%	38.92	2.27	32,324	(14,143)

### Operational Highlights

Our production grew 70% and 53% for the three and nine months ended September 30, 2016, respectively, compared to the same periods of 2015, increasing to 1,527 MBOE from 896 MBOE and 3,884 MBOE from 2,533 MBOE for the comparative three and nine month periods, respectively.

For the three months ended September 30, 2016, we drilled eight gross (5.4 net) horizontal wells and completed 11 gross (6.8 net) horizontal wells. For the nine months ended September 30, 2016, we drilled 19 gross (13.4 net) horizontal wells and completed 25 gross (17.3 net) horizontal wells. As of September 30, 2016, we had three gross (2.8 net) horizontal wells awaiting completion.

As of September 30, 2016, we had 419 gross (335 net) working interest oil wells, three gross (0.1 net) royalty interest oil wells and no natural gas wells. A well is categorized as an oil well or a natural gas well based upon the ratio of oil to natural gas reserves on a BOE basis. However, most of our wells produce both oil and natural gas.

### Liquidity and Capital Resources

Historically, our primary sources of capital have been cash flows from operations, borrowings from financial institutions, the sale of debt and equity securities and asset dispositions. Our primary uses of capital have been for the acquisition, development, exploration and exploitation of oil and natural gas properties, in addition to refinancing of debt instruments.

During the first nine months of 2016, we completed four public common stock offerings to raise additional capital, and we continue to evaluate other sources of capital to complement our cash flows from operations as we pursue our long-term growth plans. As of September 30, 2016, there was no balance outstanding on the Credit Facility, which has a borrowing base of \$385 million. Subsequent to the third quarter of 2016, we completed one debt offering, the proceeds of which were used to repay amounts borrowed under our Term Loan and for general corporate purposes.

For the nine months ended September 30, 2016, cash and cash equivalents increased \$324.7 million to \$325.9 million compared to \$1.2 million at December 31, 2015. As of October 28, 2016, our cash and cash equivalents balance was \$100.8 million following the closing of the Plymouth Transaction, offering of Senior Notes and repayment of the Term Loan.

**Liquidity and cash flow**

(dollars in millions)	For the Nine Months Ended September 30,			
	2016		2015	
Net cash provided by operating activities	\$	49.9	\$	55.5
Net cash used in investing activities		(401.8)		(178.2)
Net cash provided by financing activities		676.6		123.6
Net change in cash	\$	324.7	\$	0.9

**Operating activities.** For the nine months ended September 30, 2016, net cash provided by operating activities was \$49.9 million compared to net cash provided by operating activities of \$55.5 million for the same period in 2015. The change was predominantly attributable to the following:

- An increase in revenue offset by a decrease on settlements of derivative contracts;
- An increase in certain operating expenses related to acquired properties;
- An increase in payments on cash-settled restricted stock unit (“RSU”) awards;
- A decrease in payments related to nonrecurring early retirement expenses that were incurred in 2015;
- A payment of a secured deposit related to the Plymouth Transaction that closed subsequent to September 30, 2016; and
- A change related to the timing of working capital payments and receipts.

Production, realized prices, and operating expenses are discussed below in Results of Operations. See Notes 6 and 7 in the Footnotes to the Financial Statements for a reconciliation of the components of the Company’s derivative contracts and disclosures related to derivative instruments including their composition and valuation.

**Investing activities.** For the nine months ended September 30, 2016, net cash used in investing activities was \$401.8 million compared to \$178.2 million for the same period in 2015. The \$223.6 million increase in cash used in investing activities was primarily attributable to the following:

- A \$67.5 million decrease in operational expenditures due to the transition from a two-rig to a one-rig program in January 2016, offset in part by the release of a vertical rig in April 2015 and the transition back to a two-rig program in August 2016; and
- A \$276.6 million increase in acquisitions, net of proceeds from the sale of mineral interest and equipment, during the nine months ended months September 30, 2016. The acquisitions were funded with cash and common stock.

See Note 3 in the Footnotes to the Financial Statements for additional information on the Company’s acquisitions.

Our investing activities, on a cash basis, include the following for the periods indicated (in millions):

	For the Nine Months Ended September 30,		
	2016	2015	\$ Change
Operational expenditures	\$ 90.5	\$ 158.0	\$ (67.5)
Seismic and other	10.0	1.8	8.2
Capitalized general and administrative costs	9.0	7.9	1.1
Capitalized interest	13.1	8.0	5.1
Total capital expenditures (a)	122.6	175.7	(53.1)
Acquisitions	302.1	2.8	299.3
Proceeds from the sale of mineral interest and equipment	(22.9)	(0.3)	(22.6)
Total investing activities	\$ 401.8	\$ 178.2	\$ 223.6

- (a) On an accrual (GAAP) basis, the methodology used for establishing our annual capital budget, operational expenditures for the nine months ended September 30, 2016 were \$99.3 million. Inclusive of capitalized general and administrative and interest costs, total capital expenditures were \$136.8 million.

General and administrative expenses and capitalized interest are discussed below in Results of Operations. See Note 3 in the Footnotes to the Financial Statements for additional information on acquisitions.

**Financing activities.** We finance a portion of our working capital requirements, capital expenditures and acquisitions with borrowings under our Credit Facility, term debt and equity offerings. For the nine months ended September 30, 2016, net cash provided by financing

activities was \$676.6 million compared to cash provided by financing activities of \$123.6 million during the same period of 2015. The change in net cash provided by financing activities was primarily attributable to the following:

- Payments, net of borrowings, on our Credit Facility were \$40 million, \$104 million less than the same period of 2015; and
- A \$657.2 million increase in proceeds resulting from common stock offerings in March, April, and September 2016 as compared to proceeds resulting from a common stock offering in March 2015.

See Notes 5 and 10 in the Footnotes to the Financial Statements for additional information on our debt and equity offerings.

#### **Operational Capital Budget and Third Quarter Summary**

In early August 2016, we announced an increase of our operational capital guidance to \$140 million. The increased guidance reflects expenditures related to the reactivation of our idled second drilling rig that will be primarily in the WildHorse operating area, and increased infrastructure investments to accommodate future program development plans in this area.

Operational capital expenditures on an accrual basis were \$99.3 million for the nine months ended September 30, 2016. In addition to the operational capital expenditures, \$15.1 million of capitalized general and administrative and \$13.2 million of capitalized interest expenses were accrued in the nine months ended September 30, 2016.

Based upon current commodity price expectations for 2016, we believe that our cash flow from operations and available borrowings under our Credit Facility will be sufficient to fund our remaining 2016 capital program, including working capital requirements.

## Results of Operations

The following table sets forth certain operating information with respect to the Company's oil and natural gas operations for the periods indicated:

	Three Months Ended September 30,			
	2016	2015	Change	% Change
<b>Net production:</b>				
Oil (MBbls)	1,153	689	464	67%
Natural gas (MMcf)	2,244	1,239	1,005	81%
Total (MBOE)	1,527	896	631	70%
Average daily production (BOE/d)	16,598	9,739	6,859	70%
% oil (BOE basis)	76%	77%		
<b>Average realized sales price:</b>				
Oil (Bbl) (excluding impact of cash settled derivatives)	\$ 42.58	\$ 44.39	\$ (1.81)	(4)%
Oil (Bbl) (including impact of cash settled derivatives)	46.27	58.03	(11.76)	(20)%
Natural gas (Mcf) (excluding impact of cash settled derivatives)	\$ 3.04	\$ 3.01	\$ 0.03	1%
Natural gas (Mcf) (including impact of cash settled derivatives)	2.97	3.33	(0.36)	(11)%
Total (BOE) (excluding impact of cash settled derivatives)	\$ 36.63	\$ 38.30	\$ (1.67)	(4)%
Total (BOE) (including impact of cash settled derivatives)	39.30	49.22	(9.92)	(20)%
<b>Oil and natural gas revenues (in thousands):</b>

Operating margin	\$ 25.59	\$ 29.78	\$ (4.19)	(14)%

## Revenues

The following table reconciles the change in oil, natural gas and total revenue for the respective periods presented by reflecting the effect of changes in volume and the underlying commodity prices.

(in thousands)	Oil	Natural Gas	Total
<b>Revenues for the three months ended September 30, 2015</b>	<b>\$ 30,582</b>	<b>\$ 3,734</b>	<b>\$ 34,316</b>
Volume increase	20,597	3,025	23,622
Price increase (decrease)	(2,084)	73	(2,011)
Net increase	18,513	3,098	21,611
<b>Revenues for the three months ended September 30, 2016</b>	<b>\$ 49,095</b>	<b>\$ 6,832</b>	<b>\$ 55,927</b>

(in thousands)	Oil	Natural Gas	Total
<b>Revenues for the nine months ended September 30, 2015</b>	<b>\$ 94,584</b>	<b>\$ 9,365</b>	<b>\$ 103,949</b>
Volume increase	46,117	6,663	52,780
Price decrease	(23,608)	(1,351)	(24,959)
Net increase	22,509	5,312	27,821
<b>Revenues for the nine months ended September 30, 2016</b>	<b>\$ 117,093</b>	<b>\$ 14,677</b>	<b>\$ 131,770</b>

### Oil revenue

For the quarter ended September 30, 2016, oil revenues of \$49.1 million increased \$18.5 million, or 61%, compared to revenues of \$30.6 million for the same period of 2015. The increase in oil revenue was primarily attributable to a 67% increase in production offset by a 4% decrease in the average realized sales price, which fell to \$42.58 per Bbl from \$44.39 per Bbl. The increase in production was comprised of 353 MBbls attributable to wells placed on production as a result of our horizontal drilling program and 307 MBbls attributable to producing wells added from our acquired properties. Offsetting these increases were normal and expected declines from our existing wells.

For the nine months ended September 30, 2016, oil revenues of \$117.1 million increased \$22.5 million, or 24%, compared to revenues of \$94.6 million for the same period of 2015. The increase in oil revenue was primarily attributable to a 49% increase in production, and was predominantly offset by a 17% decrease in the average realized sales price, which fell to \$39.12 per Bbl from \$47.01 per Bbl. The increase in production was comprised of 979 MBbls attributable to wells placed on production as a result of our horizontal drilling program and 397 MBbls attributable to producing wells added from our acquired properties. Offsetting these increases were normal and expected declines from our existing wells.

See Note 3 in the Footnotes to the Financial Statements for additional information regarding the Company's acquisitions.

### Natural gas revenue (including NGLs)

Natural gas revenues of \$6.8 million increased \$3.1 million, or 83%, during the three months ended September 30, 2016, compared to \$3.7 million for the same period of 2015. The increase primarily relates to a 81% increase in natural gas volumes, while the average realized price was consistent at \$3.04 per Mcf as compared to \$3.01 per Mcf for the prior comparative quarter of 2015, reflecting both natural gas and natural gas liquids prices. The increase in production was comprised of 529 MMcf attributable to wells placed on production as a result of our horizontal drilling program and 452 MMcf attributable to producing wells added from our acquired properties. Offsetting these increases were normal and expected declines from our existing wells.

Natural gas revenues of \$14.7 million increased \$5.3 million, or 57%, during the nine months ended, September 30, 2016, compared to \$9.4 million for the same period of 2015. The increase primarily relates to a 71% increase in natural gas volumes and was predominantly offset by an 8% decrease in the average price realized, which fell to \$2.75 per Mcf from \$3.00 per Mcf, reflecting decreases in both natural gas and natural gas liquids prices. The increase in production was comprised of 1,252 MMcf attributable to wells placed on production as a result of our horizontal drilling program and 622 MMcf attributable to producing wells added from our acquired properties. Offsetting these increases were normal and expected declines from our existing wells.

See Note 3 in the Footnotes to the Financial Statements for additional information regarding the Company's acquisitions.

**Operating Expenses**

(in thousands, except per unit amounts)

	Three Months Ended September 30,							
	2016	Per	2015	Per	Total Change		BOE Change	
		BOE		BOE	\$	%	\$	%

Acquisition expense	2,410	nm	—	nm	2,410	nm	nm	nm

nm = not meaningful

**Lease operating expenses.** These are daily costs incurred to extract oil and natural gas, together with the daily costs incurred to maintain our producing properties. Such costs also include maintenance, repairs, gas treating fees and workover expenses related to our oil and natural gas properties.

For the three months ended September 30, 2016, LOE increased by 38% to \$10.0 million compared to \$7.2 million for the same period of 2015. Contributing to the increase for the current quarter was \$3.0 million related to oil and natural gas properties acquired during the second quarter of 2016 (see Note 3 in the Footnotes to the Financial Statements). Excluding LOE related to these acquired properties, LOE decreased by \$0.2 million, or 3%, compared to the same period of 2015. For the three months ended September 30, 2016, LOE per BOE decreased to \$6.52 per BOE compared to \$8.03 per BOE for the same period of 2015, which was primarily attributable to improving operational efficiency and working with our service partners to achieve cost reductions. Higher production volumes also contributed to the 19% per BOE decrease for the three months ended September 30, 2016. The increase in production was primarily attributable to an increased number of producing wells from our horizontal drilling program and acquisitions as discussed above.

For the nine months ended September 30, 2016, LOE increased by 17% to \$24.2 million compared to \$20.7 million for the same period of 2015. Contributing to the increase for the current period was \$3.8 million related to oil and natural gas properties acquired during the second quarter of 2016 (see Note 3 in the Footnotes to the Financial Statements). Excluding LOE related to these acquired properties, LOE decreased by \$0.3 million, or 1%, compared to the same period of 2015. For the nine months ended September 30, 2016, LOE per BOE decreased to \$6.24 per BOE compared to \$8.18 per BOE for the same period of 2015, which was primarily attributable to improving operational efficiency and working with our service partners to achieve cost reductions. Higher production volumes also contributed to the 24% per BOE decrease for the nine months ended September 30, 2016. The increase in production was primarily attributable to an increased number of producing wells from our horizontal drilling program and acquisitions as discussed above.

**Production taxes.** Production taxes include severance and ad valorem taxes. In general, production taxes are directly related to commodity price changes; however, severance taxes are based upon current year commodity prices, whereas ad valorem taxes are based upon prior year commodity prices. Severance taxes are paid on produced oil and natural gas based on a percentage of revenues from products sold at fixed rates established by federal, state or local taxing authorities. Where available, we benefit from tax credits and exemptions in our various taxing jurisdictions. In the counties where our production is located, we are also subject to ad valorem taxes, which are generally based on the taxing jurisdictions' valuation of our oil and gas properties.

Production taxes for the three months ended September 30, 2016 increased by 35% to \$3.5 million compared to \$2.6 million for the same period of 2015. The increase was primarily due to an increase in severance taxes, which was attributable to the increase in revenue.

The increase was offset by a decrease in ad valorem taxes attributable to a lower valuation of our oil and gas properties by the taxing jurisdictions. On a per BOE basis, production taxes for the three months ended September 30, 2016 decreased by 21% compared to the same period of 2015.

Production taxes for the nine months ended September 30, 2016 increased by 5% to \$8.2 million compared to \$7.8 million for the same period of 2015. The increase was primarily due to an increase in severance taxes, which was attributable to the increase in revenue. The increase was offset by a decrease in ad valorem taxes attributable to a lower valuation of our oil and gas properties by the taxing jurisdictions. On a per BOE basis, production taxes for the nine months ended September 30, 2016 decreased by 32% compared to the same period of 2015.

**Depreciation, depletion and amortization (“DD&A”).** Under the full cost accounting method, we capitalize costs within a cost center and then systematically expense those costs on a units-of-production basis based on proved oil and natural gas reserve quantities. We calculate depletion on the following types of costs: (i) all capitalized costs, other than the cost of investments in unevaluated properties, less accumulated amortization; (ii) the estimated future expenditures to be incurred in developing proved reserves; and (iii) the estimated dismantlement and abandonment costs, net of estimated salvage values. Depreciation of other property and equipment is computed using the straight line method over their estimated useful lives, which range from three to fifteen years.

For the three months ended September 30, 2016, DD&A increased 4% to \$17.3 million compared to \$16.7 million for the same period of 2015. For the three months ended September 30, 2016, DD&A decreased 39% per BOE to \$11.33 per BOE compared to \$18.64 per BOE for the same period of 2015. The decrease is attributable to our increased estimated proved reserves relative to our depreciable asset base and assumed future development costs related to undeveloped proved reserves. The decrease in our depreciable base was primarily related to the write-down of oil and natural gas properties during the last half of 2015 and the first half of 2016, offset by additions made through our horizontal drilling program and acquisitions.

For the nine months ended September 30, 2016, DD&A decreased 6% to \$49.3 million compared to \$52.4 million for the same period of 2015. For the nine months ended September 30, 2016, DD&A decreased 39% per BOE to \$12.70 per BOE compared to \$20.68 per BOE for the same period of 2015. The decrease is attributable to our increased estimated proved reserves relative to our depreciable asset base and assumed future development costs related to undeveloped proved reserves. The decrease in our depreciable base was primarily related to the write-down of oil and natural gas properties during the last half of 2015 and the first half of 2016, offset by additions made through our horizontal drilling program and acquisitions.

**General and administrative, net of amounts capitalized (“G&A”).** These are costs incurred for overhead, including payroll and benefits for our corporate staff, severance and early retirement expenses, costs of maintaining our headquarters, costs of managing our production and development operations, franchise taxes, depreciation of corporate level assets, public company costs, vesting of equity and liability awards under share-based compensation plans and related mark-to-market valuation adjustments over time, fees for audit and other professional services, and legal compliance.

G&A for the three months ended September 30, 2016 increased to \$7.9 million compared to \$4.3 million for the same period of 2015. G&A expenses for the periods indicated include the following (in millions):

	For the Three Months Ended September 30,			
	2016	2015	\$ Change	% Change
<b>Recurring expenses</b>				
G&A	\$ 3.7	\$ 3.5	\$ 0.2	6%
Share-based compensation	0.8	0.6	0.2	33%
Fair value adjustments of cash-settled RSU awards	3.4	0.1	3.3	nm
<b>Non-recurring expenses</b>				
Expense related to a threatened proxy contest	—	0.1	(0.1)	(100)%
<b>Total G&amp;A expenses</b>	<b>\$ 7.9</b>	<b>\$ 4.3</b>	<b>\$ 3.6</b>	<b>84%</b>

nm = not meaningful

G&A for the nine months ended September 30, 2016 decreased to \$19.8 million compared to \$22.2 million for the same period of 2015. G&A expenses for the periods indicated include the following (in millions):

	<b>For the Nine Months Ended September 30,</b>			
	<b>2016</b>	<b>2015</b>	<b>\$ Change</b>	<b>% Change</b>
<b>Recurring expenses</b>				
G&A	\$ 11.6	\$ 11.2	\$ 0.4	4%
Share-based compensation	2.0	1.6	0.4	25%
Fair value adjustments of cash-settled RSU awards	6.0	4.3	1.7	40%
<b>Non-recurring expenses</b>				
Early retirement expenses	—	3.6	(3.6)	(100)%
Early retirement expenses related to share-based compensation	—	1.1	(1.1)	(100)%
Expense related to a threatened proxy contest	0.2	0.4	(0.2)	(50)%
<b>Total G&amp;A expenses</b>	<b>\$ 19.8</b>	<b>\$ 22.2</b>	<b>\$ (2.4)</b>	<b>(11)%</b>

**Accretion expense.** The Company is required to record the estimated fair value of liabilities for obligations associated with the retirement of tangible long-lived assets and the associated ARO costs. Interest is accreted on the present value of the ARO and reported as accretion expense within operating expenses in the consolidated statements of operations.

Accretion expense related to our ARO increased 32% and 57% for the three and nine months ended September 30, 2016, respectively, compared to the same periods of 2015. Accretion expense generally correlates with the Company's ARO, which was \$5.5 million at September 30, 2016 as compared to \$4.7 million at September 30, 2015. See Note 9 in the Footnotes to the Financial Statements for additional information regarding the Company's ARO.

**Rig termination fee.** During the first quarter of 2015, the Company recognized \$3.1 million in expense related to the early termination of the contract for its vertical rig. In March 2015, the Company decided to terminate its one-year contract for a vertical rig (effective April 2015). The Company paid approximately \$3.1 million in reduced rental payments over the remainder of the lease term, which ended November 2015.

**Acquisition expense.** Acquisition expense for the three and nine months ended September 30, 2016 were related to costs with respect to our acquisition efforts in the Permian Basin. See Note 3 in the Footnotes to the Financial Statements for additional information regarding the Company's acquisitions.

**Write-down of oil and natural gas properties.** Under full cost accounting rules, the Company reviews the carrying value of its proved oil and natural gas properties each quarter. Under these rules, capitalized costs of oil and natural gas properties, net of accumulated depreciation, depletion and amortization and deferred income taxes, may not exceed the present value of estimated future net cash flows from proved oil and natural gas reserves, discounted at 10%, plus the lower of cost or fair value of unevaluated properties, net of related tax effects (the full cost ceiling amount). These rules require pricing based on the preceding 12-months' average oil and natural gas prices based on closing prices on the first day of each month and require a write-down if the net capitalized costs of proved oil and natural gas properties exceeds the full cost ceiling.

For the three months ended September 30, 2016, the Company did not recognize a write-down of oil and natural gas properties compared to a write-down of \$87.3 million for the same period of 2015 as a result of the ceiling test limitation. For the nine months ended September 30, 2016, the Company recognized a write-down of oil and natural gas properties of \$95.8 million compared to a write-down of \$87.3 million for the same period of 2015 as a result of the ceiling test limitation. See Note 2 in the Footnotes to the Financial Statements for additional information. If commodity prices were to decline, we could incur additional ceiling test write-downs in the future.

**Other Income and Expenses and Preferred Stock Dividends**

(in thousands)	Three Months Ended September 30,			
	2016	2015	\$ Change	% Change
Interest expense, net of capitalized amounts	\$ 831	\$ 5,603	\$ (4,772)	(85)%
Gain on derivative contracts	(5,135)	(23,283)	18,148	(78)%
Other income, net	(122)	(92)	(30)	33%
Total	\$ (4,426)	\$ (17,772)		
Income tax (benefit) expense	\$ (62)	\$ 45,667	\$ (45,729)	(100)%
Preferred stock dividends	(1,824)	(1,974)	150	(8)%

  

(in thousands)	Nine Months Ended September 30,			
	2016	2015	\$ Change	% Change
Interest expense, net of capitalized amounts	\$ 10,502	\$ 15,567	\$ (5,065)	(33)%
(Gain) loss on derivative contracts	11,281	(17,463)	28,744	(165)%
Other income, net	(299)	(177)	(122)	69%
Total	\$ 21,484	\$ (2,073)		
Income tax (benefit) expense	\$ (62)	\$ 38,474	\$ (38,536)	(100)%
Preferred stock dividends	(5,471)	(5,921)	450	(8)%

**Interest expense, net of capitalized amounts.** We finance a portion of our working capital requirements, capital expenditures and acquisitions with borrowings under our Credit Facility or with term debt. We incur interest expense that is affected by both fluctuations in interest rates and our financing decisions. We reflect interest paid to our lender in interest expense, net of capitalized amounts. In addition, we include the amortization of deferred financing costs (including origination and amendment fees), commitment fees and annual agency fees in interest expense.

Interest expense, net of capitalized amounts, incurred during the three months ended September 30, 2016 decreased \$4.8 million compared to the same period of 2015. The decrease is primarily attributable to a \$4.8 million increase in capitalized interest compared to the 2015 period, resulting from a higher average unevaluated property balance for the three months ended September 30, 2016 as compared to the same period of 2015. The increase in unevaluated property was primarily due to acquired properties.

Interest expense, net of capitalized amounts, incurred during the nine months ended September 30, 2016 decreased \$5.1 million compared to the same period of 2015. The decrease is primarily attributable to a \$5.2 million increase in capitalized interest compared to the 2015 period, resulting from a higher average unevaluated property balance for the nine months ended September 30, 2016 as compared to the same period of 2015. The increase in unevaluated property was primarily due to acquired properties. Offsetting the decrease was a \$0.1 million increase in interest expense related to our debt.

See Notes 3 and 5 in the Footnotes to the Financial Statements for additional information on our acquisitions and debt.

**(Gain) loss on derivative contracts.** We utilize commodity derivative financial instruments to reduce our exposure to fluctuations in commodity prices. This amount represents the (i) (gain) loss related to fair value adjustments on our open derivative contracts and (ii) (gains) losses on settlements of derivative contracts for positions that have settled within the period.

For the three months ended September 30, 2016, the net gain on derivative contracts was \$5.1 million compared to a \$23.2 million net gain for the same period of 2015. The net gain (loss) on derivative instruments for the periods indicated includes the following (in millions):

	For the Three Months Ended September 30,		
	2016	2015	\$ Change
<b>Oil derivatives</b>			
Net gain on settlements	\$ 4.2	\$ 9.4	\$ (5.2)
Net gain on fair value adjustments	0.7	13.7	(13.0)
Total gain	\$ 4.9	\$ 23.1	\$ (18.2)
<b>Natural gas derivatives</b>			
Net gain (loss) on settlements	\$ (0.2)	\$ 0.4	\$ (0.6)
Net gain (loss) on fair value adjustments	0.4	(0.3)	0.7
Total gain	\$ 0.2	\$ 0.1	\$ 0.1
<b>Total gain on derivative contracts</b>	<b>\$ 5.1</b>	<b>\$ 23.2</b>	<b>\$ (18.1)</b>

For the nine months ended September 30, 2016, the net loss on derivative contracts was \$11.2 million compared to a \$17.4 million net gain for the same period of 2015. The net gain (loss) on derivative instruments for the periods indicated includes the following (in millions):

	For the Nine Months Ended September 30,		
	2016	2015	\$ Change
<b>Oil derivatives</b>			
Net gain on settlements	\$ 15.5	\$ 23.9	\$ (8.4)
Net loss on fair value adjustments	(26.9)	(6.8)	(20.1)
Total gain (loss)	\$ (11.4)	\$ 17.1	\$ (28.5)
<b>Natural gas derivatives</b>			
Net gain on settlements	\$ 0.4	\$ 1.2	\$ (0.8)
Net loss on fair value adjustments	(0.2)	(0.9)	0.7
Total gain	\$ 0.2	\$ 0.3	\$ (0.1)
<b>Total gain (loss) on derivative contracts</b>	<b>\$ (11.2)</b>	<b>\$ 17.4</b>	<b>\$ (28.6)</b>

See Notes 6 and 7 in the Footnotes to the Financial Statements for a reconciliation of the components of the Company's derivative contracts and disclosures related to derivative instruments including their composition and valuation.

**Income tax (benefit) expense.** The Company had income tax benefit of \$0.1 million for the three and nine months ended September 30, 2016 compared to an income tax expense of \$45.7 million and \$38.5 million for the same periods of 2015. The change in income tax expense is primarily related to recording a valuation allowance of \$139.6 million at September 30, 2016 and the difference in the amount of income (loss) before income taxes between periods. See Note 8 in the Footnotes to the Financial Statements for additional information.

**Preferred Stock dividends.** Preferred Stock dividends for the three and nine months ended September 30, 2016 were \$1.8 million and \$5.5 million, respectively, as compared to \$2.0 million and \$5.9 million for the same periods of 2015, respectively. The decrease was due to a decrease in the number of preferred shares outstanding attributable to a partial share conversion in February 2016 in which the Company exchanged a total of 120,000 shares of Preferred Stock for 719,000 shares of common stock. Dividends reflect a 10% dividend yield. See Note 10 in the Footnotes to the Financial Statements for additional information.

### Item 3. Quantitative and Qualitative Disclosures about Market Risk

We are exposed to a variety of market risks including commodity price risk, interest rate risk and counterparty and customer risk. We address these risks through a program of risk management including the use of derivative instruments.

#### *Commodity price risk*

The Company's revenues are derived from the sale of its oil and natural gas production. The prices for oil and natural gas remain extremely volatile and sometimes experience large fluctuations as a result of relatively small changes in supply, weather conditions, economic conditions and government actions. From time to time, the Company enters into derivative financial instruments to manage oil and natural gas price risk, related both to NYMEX benchmark prices and regional basis differentials. The total volumes which we hedge through use of our derivative instruments varies from period to period; however, generally our objective is to hedge approximately 50% to 75% of our anticipated internally forecast production for the next 12 to 24 months, subject to the covenants under our Credit Facility. Our hedge policies and objectives may change significantly with movements in commodities prices or futures prices, in addition to modification of our capital spending plans related to operational activities and acquisitions.

The Company's hedging portfolio, linked to NYMEX benchmark pricing, covers approximately 6,000 barrels per day and 6,000 MMBtu per day of our expected oil and natural gas production, respectively, for the remaining three months of 2016. We also have commodity hedging contracts linked to Midland WTI basis differentials relative to Cushing covering approximately 4,000 barrels per day of our expected oil production for the remaining three months of 2016. See Note 6 in the Footnotes to the Financial Statements for a description of the Company's outstanding derivative contracts at September 30, 2016, and derivative contracts established subsequent to that date.

The Company may utilize fixed price swaps, which reduce the Company's exposure to decreases in commodity prices and limit the benefit the Company might otherwise have received from any increases in commodity prices. Swap contracts may also be enhanced by the simultaneous sale of call or put options to effectively increase the effective swap price as a result of the receipt of premiums from the option sales.

The Company may utilize price collars to reduce the risk of changes in oil and natural gas prices. Under these arrangements, no payments are due by either party as long as the applicable market price is above the floor price (purchased put option) and below the ceiling price (sold call option) set in the collar. If the price falls below the floor, the counterparty to the collar pays the difference to the Company, and if the price rises above the ceiling, the counterparty receives the difference from the Company. Additionally, the Company may sell put (or call) options at a price lower than the floor price (or higher than the ceiling price) in conjunction with a collar (three-way collar) and use the proceeds to increase either or both the floor or ceiling prices. In a three-way collar, to the extent that realized prices are below the floor price of the sold put option (or above the ceiling price of the sold call option), the Company's net realized benefit from the three-way collar will be reduced on a dollar-for-dollar basis.

The Company may purchase put options, which reduce the Company's exposure to decreases in oil and natural gas prices while allowing realization of the full benefit from any increases in oil and natural gas prices. If the price falls below the floor, the counterparty pays the difference to the Company.

The Company enters into these various agreements from time to time to reduce the effects of volatile oil and natural gas prices and does not enter into derivative transactions for speculative purposes. Presently, none of the Company's derivative positions are designated as hedges for accounting purposes.

#### *Interest rate risk*

On September 30, 2016, the Company's debt consisted of \$300 million of outstanding principal related to its Term Loan and no outstanding balance on our Credit Facility. The Company is subject to market risk exposure related to changes in interest rates on our indebtedness. As of September 30, 2016, the interest rate on our Term Loan borrowings was 8.50%. An increase or decrease of 1% in the interest rate would have a corresponding increase or decrease in our annual net income of approximately \$3.0 million based on the \$300 million outstanding in the aggregate under the Term Loan on September 30, 2016. The Company is also subject to market risk exposure related to changes in the underlying LIBOR-based interest rate used for the Term Loan to the extent that available LIBOR election options exceed the 1.0% floor rate. See Note 5 to the Consolidated Financial Statements for more information on the Company's interest rates on debt. Subsequent to period end, the Company repaid the outstanding balance of the Term Loan.

*Counterparty and customer credit risk*

The Company's principal exposures to credit risk are through receivables from the sale of our oil and natural gas production, joint interest receivables and receivables resulting from derivative financial contracts.

The Company markets its oil and natural gas production to energy marketing companies. We are subject to credit risk due to the concentration of our oil and natural gas receivables with several significant customers. We do not require any of our customers to post collateral, and the inability of our significant customers to meet their obligations to us or their insolvency or liquidation may adversely affect our financial results. At September 30, 2016 our total receivables from the sale of our oil and natural gas production were approximately \$28.9 million.

Joint interest receivables arise from billings to entities that own partial interests in the wells we operate. These entities participate in our wells primarily based on their ownership in leases on which we have or intend to drill. We have little ability to control whether these entities will participate in our wells. At September 30, 2016 our joint interest receivables were approximately \$25.6 million.

Our oil and natural gas derivative arrangements expose us to credit risk in the event of nonperformance by counterparties. Most of the counterparties on our derivative instruments currently in place are lenders under our Credit Facility. We are likely to enter into additional derivative instruments with these or other lenders under our Credit Facility, representing institutions with an investment grade ratings. We have existing International Swap Dealers Association Master Agreements ("ISDA Agreements") with our derivative counterparties. The terms of the ISDA Agreements provide us and the counterparties with rights of offset upon the occurrence of defined acts of default by either us or a counterparty to a derivative, whereby the party not in default may offset all derivative liabilities owed to the defaulting party against all derivative asset receivables from the defaulting party.

**Item 4. Controls and Procedures**

Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by an issuer in the reports that it files or submits under the Exchange Act is accumulated and communicated to the issuer's management, including its principal executive and financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure. Our Chief Executive Officer and Chief Financial Officer performed an evaluation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act). Based on this evaluation, our principal executive and principal financial officers have concluded that the Company's disclosure controls and procedures were effective as of September 30, 2016.

*Changes in internal control over financial reporting.* There were no changes to our internal control over financial reporting during the three months ended September 30, 2016 that have materially affected, or are reasonable likely to materially affect, our internal control over financial reporting.

**Part II. Other Information**

**Item 1. Legal Proceedings**

We are a defendant in various legal proceedings and claims, which arise in the ordinary course of our business. We do not believe the ultimate resolution of any such actions will have a material effect on our financial position or results of operations.

**Item 1A. Risk Factors**

There have been no material changes with respect to the risk factors disclosed in our 2015 Annual Report on Form 10-K and our Quarterly Report on Form 10-Q for the three months ended March 31, 2016.

**Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**

None.

**Item 3. Defaults Upon Senior Securities**

None.

**Item 4. Mine Safety Disclosures**

None.

**Item 5. Other Information**

None.

**Item 6. Exhibits**

The following exhibits are filed as part of this Form 10-Q.

Exhibit Number	Description
<b>3.</b>	<b>Articles of Incorporation and By-Laws</b>
3.1 (a)	Certificate of Incorporation of the Company, as amended through May 12, 2016
3.2	Certificate of Designation of Rights and Preferences of 10% Series A Cumulative Preferred Stock (incorporated by reference to Exhibit 3.5 of the Company's Form 8-A, filed on May 23, 2013)
3.3	Bylaws of the Company (incorporated by reference from Exhibit 3.2 of the Company's Registration Statement on Form S-4, filed on August 4, 1994, Reg. No. 33-82408)
<b>4.</b>	<b>Instruments defining the rights of security holders, including indentures</b>
4.1	Specimen Common Stock Certificate (incorporated by reference from Exhibit 4.1 of the Company's Registration Statement on Form S-4, filed on August 4, 1994, Reg. No. 33-82408)
4.2	Certificate for the Company's 10% Cumulative Preferred Stock (incorporated by reference to Exhibit 4.1 of the Company's Form 8-A, filed on May 23, 2013)
<b>10.</b>	<b>Material Contracts</b>
10.1	Purchase and Sale Agreement between Plymouth Petroleum, LLC and Callon Petroleum Operating Company dated September 1, 2016 (incorporated by reference to Exhibit 2.1 of the Company's Form 8-K, filed on September 6, 2016)
10.2	Underwriting Agreement dated as of September 6, 2016 between Callon Petroleum Company and Credit Suisse Securities (USA) LLC and J.P. Morgan Securities LLC (incorporated by reference to Exhibit 1.1 of the Company's Form 8-K, filed on September 8, 2016)
10.3	Amendment No. 4 to the Fifth Amended and Restated Credit Agreement among Callon Petroleum Company, JPMorgan Chase Bank, National Association, as administrative agent and the Lenders and parties named therein dated September 9, 2016 (incorporated by reference to Exhibit 10.1 of the Company's Form 8-K, filed on September 12, 2016)
10.4	Purchase Agreement, dated as of September 15, 2016, among Callon Petroleum Company, Callon Petroleum Operating Company and J.P. Morgan Securities LLC, as representative of the several initial purchasers (incorporated by reference to Exhibit 10.1 of the Company's Form 8-K, filed on September 16, 2016)
<b>31.</b>	<b>Section 13a-14 Certifications</b>
31.1 (a)	Certification of Chief Executive Officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.

CERTIFICATE OF INCORPORATION  
OF  
CALLON PETROLEUM HOLDING COMPANY

ARTICLE ONE

The name of the Corporation is Callon Petroleum Holding Company.

ARTICLE TWO

The address of the Corporation's registered office in the State of Delaware is 1209 Orange Street, Wilmington, New Castle County, Delaware, 19801, and the name of its registered agent at such address is The Corporation Trust Company.

ARTICLE THREE

The nature of the business or purposes to be conducted or promoted is to engage in any lawful act or activity for which corporations may be organized under the General Corporation Law of Delaware ("Act"),

ARTICLE FOUR

The Corporation shall have authority to issue two classes of stock, and the total number authorized shall be one (1) share of Common Stock of the par value of one cent (\$.01) each, and one (1) share of Preferred Stock of the par value of one cent (\$.01) each. A description of the different classes of stock of the Corporation and a statement of the designations and the powers, preferences and rights, and the qualifications, limitations or restrictions thereof, in respect of each class of such stock are as follows:

1. **ISSUANCE IN CLASS OR SERIES.** The Common Stock or Preferred Stock may be issued from time to time in one or more series, or either or both of the Common and Preferred Stock may be divided into additional classes and such classes into one or more series. The terms of a class or series, including all rights and preferences, shall be as specified in the resolution or resolutions adopted by the Board of Directors designating such class or series which resolution or resolutions the Board of Directors is hereby expressly authorized to adopt. Such resolution or resolutions with respect to a class or series shall specify all or such of the rights or preferences of such class or series as the Board of Directors shall determine, including, without limitation, any or all of the following, if applicable: (a) the number of shares to constitute such class or series and the distinctive designation thereof; (b) the dividend or manner for determining the dividend payable with respect to the shares of such class or series and the date or dates from which dividends shall accrue, whether such dividends shall be cumulative, and, if cumulative, the date or dates from which dividends shall accumulate and whether the shares in such class or series shall be entitled to preference or priority over any other class or series of stock of the Corporation with respect to payment of dividends; (c) the terms and conditions, including price or a manner for determining the price, of redemption, if any, of the shares of such class or series; (d) the terms and conditions of a retirement or sinking fund, if any, for the purchase or redemption of the shares of such class or series; (e) the amount which the shares of such class or series shall be entitled to receive, if any, in the event of any liquidation, dissolution or winding up of the Corporation and whether such shares shall be entitled to a preference or priority over shares of another class or series with respect to amounts received in connection with any liquidation, dissolution or winding up of the Corporation; (f) whether the shares of such class or series shall be convertible into, or exchangeable for, shares of stock of any other class or classes, or any other series of the same or any other class or classes of stock, of the Corporation and the terms and

conditions of any such conversion or exchange; (g) the voting rights, if any, of shares of stock of such class or series in addition to those granted herein, if any; (h) the status as to reissuance or sale of shares of such class or series redeemed, purchased or otherwise reacquired or surrendered to the Corporation on conversion; (i) the conditions and restrictions, if any, on the payment of dividends or on the making of other distributions on, or the purchase, redemption or other acquisition by the Corporation or any subsidiary, of any other class or series of stock of the Corporation ranking junior to such shares as to dividends or upon liquidation; (j) the conditions, if any, on the creation of indebtedness of the Corporation, or any subsidiary, and (k) such other preferences, rights, restrictions and qualifications as the Board of Directors may determine.

All shares of the Common Stock shall rank equally and all shares of the Preferred Stock shall rank equally, and be identical within their classes in all respects regardless of series, except as to terms which may be specified by the Board of Directors pursuant to the above provisions. All shares of any one series of a class of Common Stock or Preferred Stock shall be of equal rank and identical in all respects, except that shares of any one series issued at different times may differ as to the dates which dividends thereon shall accrue and be cumulative.

2. OTHER PROVISIONS. Shares of Common Stock or Preferred Stock of any class or series may be issued with such voting powers, full or limited, or no voting powers, and such designations, preferences and relative participating, option or special rights, and qualifications, limitations or restrictions thereof, as shall be stated and expressed in the resolution or resolutions providing for the issuance of such stock adopted by the Board of Directors. Any of the voting powers, designations, preferences, rights and qualifications, limitations or restrictions of any such class or series of stock may be made dependent upon facts ascertainable outside the resolution or resolutions of the Board of Directors providing for the issue of such stock by the Board of Directors, provided the manner in which such facts shall operate upon the voting powers, designations, preferences, rights and qualifications, limitations or restrictions of such class or series is clearly set forth in the resolution or resolutions providing for the issue of such stock adopted by the Board of Directors.
3. COMMON STOCK. Except as otherwise provided in any resolution or resolutions adopted by the Board of Directors providing for the issuance of a class or series of Preferred Stock or Common Stock, the Common Stock shall (a) have the exclusive voting power of the corporation; (b) entitle the holders thereof to one vote per share at all meetings of the stockholders of the Corporation; (c) entitle the holders to share ratably, without preference over any other shares of the Corporation, in all assets of the Corporation in the event of any dissolution, liquidation or winding up of the Corporation; and (d) entitle the record holders thereof on such record dates as are determined, from time to time, by the Board of Directors to receive such dividends, if any, if, as and when declared by the Board of Directors.

#### ARTICLE FIVE

The Corporation is to have perpetual existence.

#### ARTICLE SIX

1. NUMBER, ELECTION AND TERM OF DIRECTORS. The business and affairs of the Corporation shall be managed by a Board of Directors, which, subject to the rights of holders of shares of any class of series of Preferred Stock of the Corporation then outstanding to elect additional directors under specified circumstances, shall consist of not less than three nor more than twenty-one persons. The exact number of directors within the minimum and maximum limitations specified in the preceding sentence shall be fixed from time to time by either (i) the Board of Directors pursuant to a resolution adopted by a majority of the entire Board of Directors or (ii) the affirmative vote of the holders of 80% or more of the voting power of all of the shares of the Corporation entitled to vote generally in the election of directors voting together as a single class. No decrease in the number of directors constituting the Board of Directors shall shorten the term of any incumbent director. The directors shall be divided into three classes as nearly equal in number as possible, with the term of office of the first class to expire at the 1995 annual meeting of stockholders, the term of office of the second class to expire at the 1996 annual meeting of stockholders, and the term of office of the third class to expire at the 1997 annual meeting of stockholders, and with the members of each class to hold office

until their successors shall have been elected and qualified At each annual meeting of stockholders following such initial classification and election, directors elected to succeed those directors whose terms expire shall be elected for a term of office to expire at the third succeeding annual meeting of stockholders after their election.

2. STOCKHOLDER NOMINATION OF DIRECTOR CANDIDATES. Advance notice of stockholder nominations for the election of directors shall be submitted to the Board of Directors at least 120 days in advance of the scheduled date for the next annual meeting of stockholders.
3. NEWLY CREATED DIRECTORSHIPS AND VACANCIES. Subject to the rights of the holders of any series of any Preferred Stock then outstanding, newly created directorships resulting from any increase in the authorized number of directors and any vacancies in the Board of Directors resulting from the death, resignation, retirement, disqualification, removal from office or other cause may be filled by a majority vote of the directors then in office even though less than a quorum, or by a sole remaining director.
4. REMOVAL. Subject to the rights of the holders of any series of any Preferred Stock then outstanding, any director or the entire Board of Directors, may be removed from office at any annual or special meeting called for such purpose, and then only for cause and only by the affirmative vote of the holders of 80% or more of the voting power of all of the shares of the Corporation entitled to vote generally in the election of directors, voting together as a single class. As used herein, cause shall mean only the following: conviction of a felony or proof, beyond the existence of a reasonable doubt, that a director has committed grossly negligent or wilful misconduct resulting in a material detriment to the Corporation or committed a material breach of his fiduciary duty to the Corporation resulting in a material detriment to the Corporation.
5. AMENDMENT, REPEAT, ETC. Notwithstanding anything contained in this Certificate of Incorporation to the contrary, the affirmative vote of the holders of 80% or more of the voting power of all of the shares of the Corporation entitled to vote generally in the election of directors, voting together as a single class, shall be required to alter, amend or adopt any provision inconsistent with or repeal this Article Six, or to alter, amend, adopt any provision inconsistent with or repeal comparable sections of the Bylaws of the Corporation.

#### ARTICLE SEVEN

Subject to the rights of the holders of any series of Preferred Shares then outstanding, Any action required or permitted to be taken by the stockholders of the Corporation must be effected at a duly called annual or special meeting of stockholders of the Corporation and may not be effected by any consent in writing by such stockholders unless all of the stockholders entitled to vote thereon consent thereto in writing. Notwithstanding anything contained in this Certificate of Incorporation to the contrary, the affirmative vote of the holders of 80% or more of the voting power of all the shares of the Corporation entitled to vote generally in the election of directors, voting together as a single class, shall be required to call a special meeting of stockholders or to alter, amend or adopt any provision inconsistent with or repeal this Article Seven, or to alter, amend or adopt any provision inconsistent with comparable sections of the Bylaws.

#### ARTICLE EIGHT

The Corporation shall have the power to indemnify its present or former directors, officers, employees and agents or any person who served or is serving at the request of the Corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise to the full extent permitted by the General Corporation Law of Delaware. Such indemnification shall not be deemed exclusive of any other rights to which such person may be entitled, under any Bylaws, agreements, vote of stockholders or disinterested directors, or otherwise.

#### ARTICLE NINE

A director of the Corporation shall not be personally liable to the Corporation or its stockholders for monetary damages or breach of fiduciary duty as a director, except for liability (i) for any breach of the director's duty of loyalty to the Corporation or its stockholders, (if) for acts or omissions not in good faith or which involved intentional misconduct

or a knowing violation of law, (iii) under Section 174 of the Act, or, (iv) for any transaction from which the director derived an improper personal benefit.

#### ARTICLE TEN

In furtherance and not in limitation of the powers conferred by statute, the board of directors is expressly authorized to make, alter or repeal the Bylaws of the corporation.

#### ARTICLE ELEVEN

The name and address of the incorporator is as follows:

George G. Young III  
Butler & Binion  
1700 First Interstate Bank Plaza  
Houston, Texas 77002

In Witness Whereof, this certificate of incorporation was executed by the above named individual on this 28th day of March, 1994.

CERTIFICATE OF AMENDMENT

OF

CERTIFICATE OF INCORPORATION

Callon Petroleum Holding Company, a corporation organized and existing under and by virtue of the General Corporation Law of the State of Delaware (the "Corporation"),

DOES HEREBY CERTIFY:

FIRST: That the Board of Directors of the Corporation, by the unanimous written consent of its members, filed with the minutes of the Board, adopted a resolution proposing and declaring advisable the following amendment to the Certificate of Incorporation of the Corporation:

RESOLVED, that the Certificate of Incorporation of the Corporation be amended by changing Section 1. of the Article thereof numbered "SIX" so that, as amended, Section 1. of said Article shall be and read as follow:

"ARTICLE SIX

1. NUMBER, ELECTION AND TERM OF DIRECTORS. The business and affairs of the Corporation shall be managed by a Board of Directors, which, subject to the rights of holders of shares of any class or series of Preferred Stock of the Corporation then outstanding to elect additional directors under specified circumstances, shall consist of no more than twenty-one person. The number of initial directors shall be two. Thereafter, the exact number of director within the maximum limitations as specified above shall be fixed from time to time by either (i) the Board of Directors pursuant to a resolution adopted by a majority of the entire Board of Directors or (ii) the affirmative vote of the holders of 80% or more of the voting power of all of the shares of the Corporation entitled to vote generally in the election of directors voting together as a single class. No decrease in the number of directors constituting the Board of Directors shall shorten the term of any incumbent director. The directors shall be divided into three classes as nearly equal in number as possible, with the term of office of the first class to expire at the first annual meeting of stockholders following their election, the term of office of the second class to expire at the second annual meeting of stockholders following their election, and the term of office of the third class to expire at the third annual meeting of stockholders following their election, and with the members of each class to hold office until their successors shall have been elected and qualified. At each annual meeting of stockholders following such initial classification and election, directors elected to succeed those directors whose terms expire shall be elected for a term of office to expire at the third succeeding annual meeting of stockholders after their election. Notwithstanding the foregoing, the above provisions regarding classification of directors shall be applicable only in the event that the Board of Directors is composed of three or more directors. Election of directors need not be by written ballot, except as otherwise provided in the Bylaws."

SECOND: That in lieu of a meeting and vote of stockholders, the sole stockholder of the Corporation has given its written consent to the amendment in accordance with the provisions of Section 228 of the General Corporation Law of the State of Delaware.

THIRD: That the amendment was duly adopted in accordance with the applicable provisions in Sections 242 and 228 of the General Corporation Law of the State of Delaware.

IN WITNESS WHEREOF, the Corporation has caused this Certificate to be signed by Fred L. Callon, its President, and attested by H. Michael Tatum, Jr., its Secretary, this 2nd day of August, 1994.

CERTIFICATE OF MERGER

OF

CALLON CONSOLIDATED PARTNERS, L.P.  
(a Delaware limited partnership)

with and into

CALLON PETROLEUM HOLDING COMPANY  
(a Delaware corporation)

Callon Consolidated Partners, L.P., a Delaware limited partnership, for the purpose of merging with Callon Petroleum Holding Company, a Delaware corporation, hereby certifies as follows:

1. The name and jurisdiction of formation or organization of each of the constituent entities are:

Name	Jurisdiction
Callon Petroleum Holding Company	Delaware
Callon Consolidated Partners, L.P.	Delaware

2. An agreement and plan of consolidation has been approved, adopted, certified, executed and acknowledged by each of the constituent entities in accordance with section 263 of the Delaware General Corporation Law.
3. The name of the surviving corporation is Callon Petroleum Holding Company, which shall herewith be changed to Callon Petroleum Company.
4. The amendments or changes in the Certificate of Incorporation of the surviving corporation are as follows:

- (i) Article One is amended and replaced in its entirety with the following Article One:

"ARTICLE ONE

The name of the Corporation is Callon Petroleum Company."

- (ii) The first sentence of Article Four is amended and replaced in its entirety with the following sentence:

"The Corporation shall have authority to issue two classes of stock, and the total number authorized shall be 20,000,000 shares of Common Stock of the par value of one cent (\$.01) each, and 2,500,000 shares of Preferred Stock of the par value of one cent (\$.01) each."

5. The executed agreement and plan of consolidation is on file at the principal place of business of the surviving corporation, the address of which is:

Callon Petroleum Holding Company  
200 North Canal Street  
Natchez, Mississippi 39120

6. A copy of the agreement and plan of consolidation will be furnished by Callon Petroleum Holding Company, on request and without cost, to any partner or stockholder of a constituent entity.

IN WITNESS WHEREOF, this Certificate of Merger has been duly executed as of the 16th day of September 1994, and is being filed by Callon Petroleum Holding Company, the surviving corporation.

AMENDMENT  
TO  
CERTIFICATE OF INCORPORATION  
OF  
CALLON PETROLEUM COMPANY

The undersigned, Robert A. Mayfield, Corporate Secretary of Callon Petroleum Company, a corporation organized and existing under the laws of the State of Delaware (the "CORPORATION"), does hereby certify as follows:

FIRST: The name of the Corporation is Callon Petroleum Company

SECOND: This Amendment (the "AMENDMENT") to the Certificate of Incorporation of the Corporation (the "CERTIFICATE") was duly adopted in accordance with the provisions of Section 242 of the Delaware General

Corporation Law. The Board of Directors has duly adopted resolutions setting forth and declaring advisable this Amendment and the holders of a majority of the outstanding stock of the Corporation entitled to vote at the special meeting of the stockholders called for the purpose of voting on the Amendment have voted in favor of this Amendment.

THIRD: The Certificate is hereby amended by amending and restating the first sentence of Article Four to be and read as follows:

"The Corporation shall have authority to issue two classes of stock, and the total number authorized shall be 30,000,000 shares of Common Stock, par value \$.01 per share, and 2,500,000 shares of Preferred Stock, par value \$.01 per share."

IN WITNESS WHEREOF, the undersigned has executed this Amendment on behalf of the Corporation and has attested such execution and does verify and affirm, under penalty of perjury, that this Amendment is the act and deed of the Corporation and that the facts stated herein are true as of this 23rd day of January, 2004.

## CERTIFICATIONS

I, Fred L. Callon, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Callon Petroleum Company;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures as of the end of the period covered by this report based on such evaluation; and
  - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officers and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent function):
  - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal controls over financial reporting;

**CERTIFICATION PURSUANT TO 18 U.S.C. SECTION 1350**

In connection with the Quarterly Report on Form 10-Q of Callon Petroleum Company for the quarterly period ended September 30, 2016, as filed with the Securities and Exchange Commission on the date hereof (the "Report"), the undersigned, in the capacities and on the dates indicated below, each hereby certify pursuant to 18 U.S.C. section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, that the Report fully complies with requirements of Section 13(a) of 15(d) of the Securities Exchange Act of 1934 and the information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.

Date: November 2, 2016 /s/ Fred L. Callon  
Fred L. Callon (Principal Executive Officer, Director)

Date: November 2, 2016 /s/ Joseph C. Gatto, Jr.  
Joseph C. Gatto, Jr. (Principal Financial Officer)

The foregoing certification is being furnished as an exhibit to the Report pursuant to Item 601(b)(32) of Regulation S-K and Section 906 of the Sarbanes-Oxley Act of 2002 (subsections (a) and (b) of Section 1350, Chapter 63 of Title 18, United States Code) and, accordingly, is not being filed as part of the Report for purposes of Section 18 of the Securities Exchange Act of 1934, as amended, and is not incorporated by reference into any filing of the Company, whether made before or after the date hereof, regardless of any general incorporation language in such filing.
